

About EMBTA Content Requirements

Route: /about — History, Mission, Vision, Charter & Objectives

1. Executive Overview

The About page establishes legal standing, historical context, constitutional mission, and strategic objectives. Every section currently uses official placeholders ([Official Mission], [Official Vision], [Association History], [Founding Information]) to prevent fabrication.

2. Required Details Checklist & File Mapping

Section	Current Placeholder	Required Information from EMBTA	File to Update	Status
Constitutional Mission	[Official Mission]	Exact, verbatim mission statement ratified in the EMBTA constitution/charter.	src/data/aboutData.ts	[] Pending
Strategic Vision	[Official Vision]	Official long-term vision statement (e.g. Vision 2026–2030 roadmap).	src/data/aboutData.ts	[] Pending
Association Founding History	[Association History], [Founding Information]	Historical narrative detailing how and why EMBTA was founded, key founding elders/leaders, and foundational conventions.	src/data/aboutData.ts	[] Pending
Historical Milestones (Timeline)	[Established Year], Phase II, Phase III	Chronological list of milestone years and achievements: e.g. statutory registration date, freight agreements, trade corridor expansions.	src/data/aboutData.ts	[] Pending
Statutory Purpose	4 Demo Purpose Cards	Review and replace demo tags (Business Connection, Collaboration, Community Engagement, Sustainable Growth) with official charter mandates.	src/data/aboutData.ts	[] Pending
Formal Objectives (OBJ-01 to 05)	5 Demo Objectives	Specific constitutional objectives from the bylaws (e.g. dispute arbitration protocols, fair pricing standards, micro-finance liaison).	src/data/aboutData.ts	[] Pending
Statutory Registration Number	EMBTA/ADM-2026	Official government societies/trade association registration certificate number.	src/data/aboutData.ts	[] Pending

3. Technical Instruction for Webmaster

Edit src/data/aboutData.ts. All values under mission.content, vision.content, background.milestones, and objectives are centralized in this single TypeScript data file.
