

Gallery Media Content Requirements

Route: /gallery — Public Information Media Wall & Video Streams

1. Executive Overview

The Media Gallery houses high-resolution photographic and video documentation of association summits, highway inspections, guild meetings, and community townhalls. It currently uses labeled sample photos and a demo YouTube embed (aqz-KE-bpKQ).

2. Required Details Checklist & File Mapping

Media Category	Current State	Real Media Assets Needed	File to Update	Status
YouTube Video Embeds	Demo video (aqz-KE-bpKQ)	Official YouTube video URL(s) of association general meetings, presidential addresses, or symposium recordings.	src/data/galleryData.ts	[] Pending
Meetings & Assemblies	Demo stock images	Original photos of executive council meetings, stakeholder roundtables, and tripartite summits with transport officers.	src/data/galleryData.ts	[] Pending
Highway & Transport Operations	Demo stock images	Original photos of cargo checkpoints, fleet vehicle inspections, and transport wing logistics operations.	src/data/galleryData.ts	[] Pending
Business & Market Fairs	Demo stock images	Original photos of local market stalls, timber depots, merchandise expos, and vendor capacity-building workshops.	src/data/galleryData.ts	[] Pending
Community Outreach	Demo stock images	Original photos of village elder consultations, public welfare handovers, and community development projects.	src/data/galleryData.ts	[] Pending
Media Metadata	Sample dates/captions	Exact event date (Month, Year), official descriptive caption, and secretariat clearance for each media item.	src/data/galleryData.ts	[] Pending

3. Technical Instruction for Adding Gallery Items

Save real photo files into public/assets/gallery/. Then open src/data/galleryData.ts and add or update entries in the galleryData array specifying title, category, date, url, and description.
