

Contact Desk Content Requirements

Route: /contact — Secretariat Coordinates & Public Inquiries

1. Executive Overview

The Contact Desk connects traders, transport operators, and government authorities directly with the EMBTA Secretariat. All contact coordinates currently utilize standardized placeholders to avoid publishing inaccurate data.

2. Required Details Checklist & File Mapping

Coordinate Field	Current Placeholder	Real Information Needed	File to Update	Status
Secretariat Address	[Association Address]	Full physical office address: Building name, wing/floor, street, city/town, district, state, PIN code.	src/data/siteConfig.ts	[] Pending
Official Phone Numbers	[Official Phone Number]	Primary office telephone, trader helpline, and executive secretariat mobile contact numbers.	src/data/siteConfig.ts	[] Pending
Official Email Addresses	[Official Email Address]	Primary email (e.g. secretariat@embta.org) and inquiry routing emails (e.g. contact@embta.org).	src/data/siteConfig.ts	[] Pending
Public Chamber Hours	[Office Hours]	Exact operating days and office hours when secretariat chambers are open to members and the public.	src/data/siteConfig.ts	[] Pending
Emergency Transit Hotline	[Emergency Desk Phone]	24/7 emergency contact number for drivers and transporters facing highway transit bottlenecks or cargo disputes.	src/data/siteConfig.ts	[] Pending
Form Dispatch Destination	Frontend simulated delay	Designated email address or webhook endpoint to receive submissions from the website contact form.	src/pages/ContactPage.tsx	[] Pending
Social Media Channels	Placeholder links	Official URLs for WhatsApp community channel, Facebook page, Telegram group, or YouTube channel.	src/data/siteConfig.ts	[] Pending

3. Technical Instruction for Webmaster

Edit src/data/siteConfig.ts under the contact object. Updating this single file automatically synchronizes contact coordinates across the Contact Desk page, Global Header, and Global Footer.
